- C. Physical Effects and Suggested Relief
- D. Breaking a Fast
- E. Daniel Fast Food List, by Susan Gregory
- F. 7 Basic Steps to Successful Fasting and Prayer, by Bill Bright
- G. Your Personal Guide to Fasting and Prayer, by Bill Bright

# I. <u>Fasting Basics</u>

#### A. Introduction

### What is fasting?

- Temporarily giving up something to better focus on God
- Willingly abstaining from food or certain pleasures
- Hungering for God more than food or other pleasures (Deut. 8:3, Matt. 5:6, Mark 7:24-30)
- Fasting was an expected discipline in both the Old and New Testament.
  - OT: Fasting required on the Day of Atonement (Leviticus 16:29-31)
  - NT: Jesus expected His followers to fast (Matthew 6:16, 9:15)

# Why should Christians fast?

- Draw close to God: Restore the loss of your "first love" for Jesus; Deepen your relationship with God by spending quality time with Him praying, worshipping, listening to the Holy Spirit, and studying His word. (II Chronicles 20:1-4, Joel 2:12, Matthew 5:6, Revelation 2:4)
- Crucify the flesh: Fasting strengthens the spirit and weakens the flesh. It increases our discipline and self-control, one of the fruits of the spirit (*Galatians 5:22*). Fasting strikes down gluttony and de-thrones the idol many of us unknowingly worship: "king stomach." (*Deuteronomy 8:11-14, Ezekiel 16:4-50, Psalm 78:18, Romans 8:6, Galatians 5:24, Philippians 3:19*)
- **Destroy strongholds**: Fasting breaks the power of evil; it's a "hunger strike" against hell. (*Mark 9:28-29; Daniel 10*)
- Seek wisdom and guidance: (Daniel 10, Acts 13:2-4)
- Intense Supplication: Lifting up urgent requests to God (1 Samuel 1:7).
- Express repentance and return to God: (Jonah 3:5-10, Joel 2:12)
- Humble oneself before God: Fasting is a biblical way to truly humble yourself in the sight of God (Psalm 35:13, Ezra 8:21). King David said, "I humbled myself with fasting."

# What are the results of fasting?

- Strengthens prayer: One author refers to it as the third strand in the chord of Christian disciplines that is often neglected (See Matthew 6 and Ecclesiastes 4:12)
- Brings things to the surface: Reveals sin and your true heart, resulting in brokenness, repentance, and a transformed life. Allows you to recognize and repent of hidden sins, unforgiveness, or bitterness.
- Blessing, favor, and anointing: When offered out of a pure heart with God-centered (not self-centered) motives, God is honored and blesses it (Joel 2:12, 15,25-29, Isaiah 58:8-11)
- **Health and healing** "Then your light shall break forth like the morning, your healing shall spring forth speedily." (Isaiah 58:8-11)
- Personal and corporate revival
- Increases sensitivity to the Holy Spirit
- Helps discern between our wants and our needs
- Brings supernatural breakthroughs

### What are common pitfalls or misconceptions about fasting?

- Trying to manipulate God in order to get what you want
- Treating the fast as a diet or just a change in eating habits
- Being legalistic and trying to show God how "pure, righteous, or good" you can be
- Self-righteousness, bragging, playing the role of the martyr, etc.
  - o God is not impressed by what we do, we can never earn or work our way to God.
- Becoming overly obsessed with food

# What happens physically when you fast?

See Appendix C for more information

The following effects are listed from Don Colbert's book: Toxic Relief

 Body Detoxification: Research shows that the average American consumes up to four pounds of chemical preservatives, coloring, stabilizers, flavorings, and other additives per year.<sup>1</sup> The build-up of these harmful chemicals can cause illness and disease if not flushed out of the body. A normal fast or a Daniel fast with plenty of purified water helps rid the body of these toxins and flush out impurities. fast.

- During a normal fast longer than 3 days, you may notice darker urine, a white coating on the tongue, or bad breath as you body eliminates toxins.
- The first few days you may experience a headache or hunger pangs
- Rest for your entire digestive system
- **Weight loss**: Consult your doctor before fasting to see if your plan is physiologically sound for your body type and consider alternatives if necessary.
- Lower blood pressure and lower cholesterol
- Slows the aging process (Deuteronomy 34:7)
- Allows the body time to heal and prevents sickness: Examples: healing rheumatism in the
  joints and muscles, heart disease, poor circulation, stress-related exhaustion, skin diseases
  (including acne and complexion problems), irregular menstrual cycles and hot flashes,
  respiratory organ diseases, allergies, and other eye diseases.<sup>4</sup>
- Sharpens your mind, improves hearing, sight, taste, touch, smell, and all sensory faculties
- Helps break addictions to sugar and junk food as well as alcohol, nicotine, and other drugs

#### **B.** Types of Fasts

#### Biblical Fasts

# 1. Partial

Eliminating specific items from your diet.

Daniel refused to eat food sacrificed to idols and instead chose to only eat fruits and vegetables and "no pleasant food." (*Daniel 1:12; 10:3*)

### 2. Normal

No food for a number of days but drink **plenty** of water.

Depending on the fast length, broth or juices may be taken to maintain strength.

3. <u>Absolute</u> (Supernatural when sustained for more than three days)

No food or water

Do not attempt this without strict medical supervision, three days or longer without water is life-threatening!

(Ezra 10:6, Esther 4:16, Acts 9:9)

# Who fasted?

# 1. Individuals

Jesus instructed His followers to fast privately (Matt 6:16-18)

# 2. Congregational

To be rid of the locust plague (Joel 2:15-16)

Examples of corporate fasts (1 Kings 21:9, 2 Chronicles 20:3, Ezra 8:21, Ester 4:16)

Dedicating Barnabas and Saul before the first missionary journey (Acts 13:2)

Church members (Acts 10:30, 14:23)

### 3. **National**

Jehoshaphat proclaimed a fast for all Judah when a vast army was coming against them. (2 Chronicles 20:2-3)

When the Jews returned from the Babylonian exile, they celebrated the Feast of Tabernacles. On the eighth day, they fasted, prayed, and repented. (Nehemiah 9:1)

Esther instructed the people of Susa to fast from food and water for three days before she approached the king. *(Esther 4:16)* 

After Jonah obeyed and preached in Assyria, the Ninevites believed God, repented, and declared a fast. (Jonah 3:5-8)

How often did people fast?

### 1. Regular

Every Jew was to fast from food and water once a year on the Day of Atonement. This is still practiced today. *(Leviticus 16:29-31)* 

Four annual fasts were declared while the Jews were in captivity in Babylon. *(Zechariah 8:19)* 

The Pharisee fasted twice a week. (Luke 18:12)

# Examples from Christian tradition:

Lenten season

Season of fasting and self-denial for Christians in preparation for Easter

John Wesley: Fasted twice a week and would not ordain people to the Methodist ministry unless they fasted on Wednesdays and Fridays.

# 2. Occasional Under special circumstances

Esther, Jehoshaphat, early church (Esther 4:16, 2 Chronicles 20:2-3, Acts 13:2)

Implied by Jesus in *Matthew 9:15* "The time will come when the bridegroom will be taken from them; then they will fast."

For how long?

#### Sun-up to sun-down

Israel defeated the Benjamites after a 24 hour fast (Judges 20:26-48)

David and his men fasted and mourned for Saul and Jonathan (2 Samuel 1:12)

### 3 days

Esther called for all the Jews to fast to stop Haman's threats against their lives. The Jews were spared and Haman was hung on the very gallows he built! (*Esther 4-7*)

Paul after his conversion (Acts 9:9)

#### 7 days

People of Jabesh Gilead fasted and mourned 7 days after the death of Saul and his sons (1 Samuel 31:13)

### 10 and 21 days partial fast

During Babylon captivity, Daniel abstained from foods sacrificed to idols, essentially eating what we would term today a Vegan diet (*Daniel 1:8-15, 10:3*)

### 40 days

Moses before receiving the 10 commandments (*Exodus 34:27-28*) Elijah's journey to Mt. Horeb (*1 Kings 19:8*) Jesus tempted in the desert (*Luke 4:1-2*)

#### **Alternative Fasts**

**<u>Hobbies</u>** – Taking a break from a hobby or pastime to spend more time with God

<u>Media</u> – Abstaining from some or all of the following: TV, movies, secular music, video games, using the internet, Facebook, email, texting, phones, etc.

<u>Materialism</u> – Abstaining from some or all of the following: shopping or spending money for entertainment or non-essential items, eating out, other luxuries, etc.

<u>Marital Relations</u> – Abstaining from physical intimacy with one's spouse (first discuss and agree, *1 Corinthians 7:5*)

<u>Partial</u> – Eliminating specific food items from your diet (example: coffee, dessert, etc.)

People - Choosing to be alone with God

<u>Noise</u> – Choosing to be silent and listen to God's voice (No talking, writing, reading, or listening to music)

<u>Time</u> – Making a commitment to spend extra time with the Lord – especially waking up early or staying up late as a sacrifice to pray and worship

# II. How to Fast

# A. Beginning the discipline of fasting

# 1. Start with Prayer

Open your heart before the Lord (1 Samuel 16:7, Joel 2:12-13)

Determine your motivation for fasting and ask God to search your heart (Ps. 139:23-24)

**Listen** for a nudging to fast

# Ask God for guidance and conviction

- What would be a sacrifice for you? Ask God to reveal to you what is cluttering your life that you could give up for a period of time to focus on Him instead.
- show you what person, circumstance, or request(s) to lift to Him

# 2. Start Small

Fast for one meal or half a day

Choose a time that you can devote to prayer and praise to God

### How to fit short fasts into a busy life: PRACTICAL TIPS AND IDEAS

- Try fasting **before church on Sundays**, in preparation for the service and in expectation for God to show up.
- God's word for lunch: Instead of lunch one day a week, pack a bottled water or juice and find a quiet place to be with God and read the Bible.
- Start your day with a fast until lunch time. Instead of your normal breakfast, drink some herbal tea and spend the time reading and meditating on God's word
- Post Bible verses or prayer requests on the wall by your bed or on the bathroom mirror so you'll remember first thing to start your day in the Word and in prayer
- As an alternative fast, turn off your music and cell phone while you drive and talk to God out loud or listen to praise and worship music.
- If you choose to give up Facebook, watching TV, or another activity that normally takes up your time, spend the time you would have spent with those activities in prayer and time with God.

### 3. Have a plan

Prayerfully choose the type of fast and the duration you intend to undertake

**Be specific**: write down your commitment (what you are giving up and for how long) and share the commitment with at least one person who is willing to help keep you accountable.

**Be wise**, choose a day or time period in your schedule where you can truly seek God and spend alone time with Him.

If you're committing to a partial or total fast, **taper off your food intake** several days in advance of the fast if possible, especially with caffeine and sugar. This will physiologically help your body prepare for the change in diet.

**For a partial fast, plan your meals ahead of time** and go grocery shopping to prepare.

# 4. Other Guidelines

**Consult your doctor before fasting**. Especially if you take prescription medication, or have any other condition that may be exasperated by fasting.

In general, **avoid fasting** if you are:

Sick, traveling, pregnant or nursing.

Diabetic or have gout, liver disease, heart disease, kidney disease, ulcers,

hypoglycemia, cancer, or blood diseases.

Prone to anorexia, bulimia, or other eating disorders.

In a hurry and are seeking immediate results regarding a decision.

Fasting is not magic!

### B. During a fast

Spend more time with God in prayer, worshipping Him, and studying the Bible.

### What to do instead of eating: PRACTICAL TIPS AND IDEAS

- Take a Bible and a glass of water with you to a private place
- Breathe deeply and relax
- Place yourself in God's presence, be still and listen
- You may say the words of Samuel, "Speak Lord, your servant is listening"
- Spend time worshipping God and thanking Him for your blessings.
- Bring your requests and desires to God. Ask if they are within His will and Word.
- Keep a journal of your prayers and what you feel God speaking to you
- Offer your desires and prayers to God.

- **Fight for discipline and sacrifice during your fast.** (*Romans 12:1*) Your fast should feel like a sacrifice and a lifestyle change. If it doesn't mean anything to you, it won't mean anything to God.<sup>2</sup>
- **Stay hydrated.** Water is a faster's best friend. Drink plenty of it. It will help curb your hunger and make you feel full.
- **Use prudence and caution; Avoid extremism.** Don't have the attitude that you are out to prove yourself to God at how many self-denying sacrifices you can make. He won't be impressed.
- You may experience having a "shorter fuse" than normal. Impatience and irritability may come as a result of not eating. However, this is NO EXCUSE for wrong behavior. Ask God to give you self-control. See also *Isaiah 58:3-9*.
- **Fight against a spirit of legalism.** Remember, God looks at the heart *(1 Samuel 16:7)*; it's all about your relationship with Him. Fasting is simply a means to achieve that closeness.
- **Fast with God's strength, not your own.** When we fast from our self-efforts, we become prideful. Eventually, we will come to the end of ourselves and we will need to rely on God's strength. Humbly ask God for help. If you are truly being led by the Spirit to fast, God will sustain you and help you to succeed.
- God will not be manipulated. Fasting is not a magic formula that depends on you to perfectly execute in order to get what you want from God. If you approach a fast in this way you will be disappointed.

  If you're too focused on twicting God's arm and demanding answered prover you'll miss
  - If you're too focused on twisting God's arm and demanding answered prayer, you'll miss out on the most blessed result of fasting: intimacy with God!
- **Avoid the trap of self-righteousness.** (*Matthew 6:16*) Keep your pride in check. Remember this is about strengthening your relationship with God, NOT comparing yourself with other people. Keep your eyes focused on Jesus! (*John 21:22*)
- **Handle social situations graciously.** Politely turn down food, but explain why if people persist.

# C. Breaking a fast

Don't break a fast with a large meal.

Eat small portions of foods that feel gentle to your stomach.

The longer the fast, the greater the need is to break it gently.

(See appendix D for guidelines on how to break a fast for 7 or more days)

#### A. Daniel Fast

See appendix E for food guidelines

- Alternative fasting option for fasting beginners, the especially physically active, or those with medical conditions that prohibit a liquid fast
- Can be sustained for longer-term fasts without medical complications
- Very healthy and Biblical (see Daniel 1:8-15 and Daniel 10)
- Many resources for recipes and food guidelines
- May take extra time to grocery shop and prepare food
- Be careful to not get legalistic or overly focused on daily food choices

# **Maintaining Nutritional Values**

By Bill Bright

I know the prospect of going without food for an extended period of time may be of concern to some. But there are ways to ensure that your body is getting the nutrients it needs so you can remain safe and healthy during your fast.

For an extended fast, I recommend water and fruit and vegetable juices. The natural sugars in juices provide energy, and the taste and strength are motivational to continue your fast. Try to drink fresh juices, if possible. Off-the-shelf juice products are acceptable, as long as they are 100% juice with no sugar or other additives.

If you are beginning a juice fast, there are certain juices you may wish to avoid and certain ones that are especially beneficial. Because of their acid content, most nutritionists do not advise orange or tomato juice (these are better tolerated if mixed with equal portions of water). The best juices are fresh carrot, grape, celery, apple, cabbage, or beet. They also recommend "green drinks" made from green leafy vegetables because they are excellent "de-toxifiers."

Fruit juices are "cleansers" and are best taken in the morning. Since vegetable juices are "restorers" and "builders," they are best taken in the afternoon.

I usually dedicate a portion of my 40-day fast to a special liquid formula, which I have found to be effective over many years. A few recipes and my comments are on this page, as well as a helpful schedule.

One gallon distilled water

1-1/2 cup lemon juice

3/4-cup pure maple syrup

1/4-teaspoon cayenne pepper.

The lemon juice adds flavor and vitamin C, the maple syrup provides energy, and the cayenne pepper -- an herb -- acts to open small blood vessels which, I believe, helps the body as it cleanses itself of stored toxins. (A word of caution: although I use this formula with no ill effects, cayenne pepper could cause severe physical reactions in persons with a specific

allergy to this herb.)

My favorite juice is a mixture of 100% pure white grape juice and peach juice. The juice is available in frozen cans under the Welch label. Most knowledgeable nutritionists recommend:

- Watermelon -- just put it in the blender without adding water
- Fresh apple juice
- Green juice -- blend celery, romaine lettuce, and carrots in equal proportions.
   (Vegetable juices like this one are important, for they supply the electrolytes necessary for proper heart function!)

Some nutritionists recommend warm broth, especially if you live in a colder climate. You may find their recipes helpful:

• Boil sliced potatoes, carrots, and celery in water.

Do not add salt.

After about a half-hour, drain off the water and drink.

 Gently boil three carrots, two stalks of celery, one turnip, two beats, a half head of cabbage, a quarter of a bunch of parsley, a quarter of an onion, and a half clove of garlic

Drain off the broth and drink up to two or three times daily.

You may find the following daily schedule helpful during your fast. I recommend you print it and keep it handy throughout your fast.

• 5:00 a.m. - 8:00 a.m. Fruit juices, preferably freshly squeezed or blended, diluted in 50 percent distilled water if the fruit is acid. Orange, apple, pear, grapefruit, papaya, grape, peach or other fruits are good.

10:30 a.m. - noon
 Green vegetable juice made from lettuce, celery, and carrots in three equal parts.

2:30 p.m. - 4:00 p.m.
 Herb tea with a drop of honey. Make sure that it is not black tea or tea with a stimulant.

6:00 p.m. - 8:30 p.m.
 Broth from boiled potatoes, celery, and carrots (no salt).

I suggest that you do not drink milk because it is a pure food and therefore a violation of the fast. Any product containing protein or fat, such as milk or soy-based drinks, should be avoided. These products will restart the digestion cycle and you will again feel hunger pangs. Also, for health reasons stay away from caffeinated beverages such as coffee, tea, or cola. Because caffeine is a stimulant, it has a more powerful effect on your nervous system when you abstain from food. This works both against the physical and spiritual aspects of the fast.

Another key factor in maintaining optimum health during a fast is to limit your physical activity. Exercise only moderately, and rest as much as your schedule will permit (this especially applies to extended fasts). Short naps are helpful as well. Walking a mile or two each day at a moderate pace is acceptable for a person in good health, and on a juice fast. However, no one on a water fast should exercise without the supervision of a fasting specialist.

# **Appendix C**

# What Physical Effects to Expect

By Bill Bright

Although fasting can be an indescribable blessing, it is not always easy for everyone. In this time of discipline, self-sacrifice and reflection, do not be surprised if you experience mental and physical discomforts.

To begin, you may experience some inner conflict when you deny yourself the pleasure of eating delicious food. Any sort of fast may sometimes leave you feeling impatient and irritable. During a 3-day fast, this struggle can intensify toward the end of the second day. That seems to be a favorite time for the "self" to rise up and say, "This is as far as I want to go. I have done enough."

# **Physical Effect:**

**Hunger Pangs:** These are greatest usually during the first three days of the fast. Your body is adjusting from using the food in your digestive tract (which remains about three days) to consuming stored fats.

# **Suggested Relief:**

**Psyllium Bulk:** Help eliminate hunger pangs and also aids in cleansing the body. Several capsules can be taken throughout the day with plenty of water.

**Silymarin tablets** may also be helpful, for they are believed to protect and enhance the cleansing of the liver.

# **Physical Effect:**

Coldness, bad breath and heightened body odor, changes in elimination (constipation or diarrhea), light-headedness, changes in sleeping and dreaming patterns, aches and pains.

A white-coated tongue at the beginning of a fast may be a part of the body's pattern of throwing off toxins. Also expect to go the bathroom often (you will be drinking lots of water!)

# **Suggested Relief:**

After the first two weeks of an extended fast, many of these symptoms subside. Continuing aches in a certain area of the body usually means elimination of fatty tissue is going on in that area, which is not harmful. However, any extensive pain should be examined immediately.

YOU SHOULD STOP FASTING IF YOU ARE EXPERIENCING SEVERE PAIN OR SWELLING.

#### **Physical Effect:**

Headaches or stomachaches may be a result of salt, sugar, or caffeine withdrawal.

#### **Suggested Relief**

Eliminating those items from your diet prior to fasting is the best way to avoid these pains.

### **Physical Effect**

**Lower back pain** may indicate that you are dehydrating

# **Suggested Relief**

Drink more fluids

#### **Physical Effect**

**Dizziness** may be caused by a sudden change in position, such as rising suddenly from a chair. **Suggested Relief** 

Stop for a second or two, then recover. Move slowly. (A word of caution: these conditions may be symptoms of other problems requiring medical attention).

# **Physical Effect**

Minor fasting discomfort

#### **Suggested Relief**

Take one teaspoon of psyllium seed powder morning and evening. Mixed in lukewarm water, it becomes like Jell-O. This powder will hasten the elimination of toxins from your colon and help to prevent headaches and dizziness for most healthy people. Alfalfa tablets can help control bad breath and cleanse the system. Two tablets at a time can be taken several times a day.

In my desire to be absolutely faithful to my first 40-day fast, I stopped taking my usual vitamins and minerals. However during subsequent fasts, I have felt strongly impressed to continue my vitamin and herbal therapy and also using psyllium. I do this to keep my "temple" healthy while continuing to deny myself the pleasure of eating solid food.

During your fast, you may have your struggles, discomforts, spiritual victories, and failures. In the morning you may feel like you are on top of the world, but by evening you may be wrestling with the flesh-sorely tempted to raid the refrigerator and counting how many more days are left in your fast. This is especially true if you are new at fasting. To counteract temptations like these, take extra time with the Lord to spend with God. Step outside for fresh air and a moderate walk of a mile or two, and talk to the Lord as you walk along. And in the process always keep on sipping water or juice frequently during your waking hours.

# **Appendix D**

# **Finishing Your Fast**

By Bill Bright

- All the experts agree that "breaking the fast" is the critical phase of fasting. While your body is in the resting mode, your stomach shrinks and your intestines become idle, so solid food must be re-introduced very slowly to avoid kidney failure or digestive distress. In fact, after a 40-day fast, you should make a careful transition for at least three days before returning to eating meats or fats or normal foods.
- Further, if you end your fast gradually, the beneficial physical and spiritual effects will linger for days. But if you rush into solid foods, you may lose much of your deep sense of peace and experience physical problems such as diarrhea, sickness, fainting, and frankly even death in some cases, due to shock!
- Dr. Paul Bragg and his daughter Patricia have conducted fasting clinics for many years. Their book, The Miracle of Fasting, gives a specific daily food plan for breaking a 7-day fast that could be adapted and stretched out over several more days for a 40-day fast.

### **Breaking a Seven-Day Fast**

# 5 o'clock as you end your 7th day of the fast

 Peal four or five medium-sized tomatoes - cut them up, bring them to a boil and then turn off the heat. When they are cool enough to eat, have as many as you desire.

# Morning of the 8th day

- Salad of grated carrots and grated cabbage, with half an orange squeezed over it.
- Bowl of steamed greens and pealed tomatoes (spinach, Swiss chard, or mustard greens). Bring the greens to a boil, then turn off the heat.
- You may eat two slices of 100 percent whole-wheat bread, which has been toasted until it is thoroughly dry-this is called "Melba toast." After it has been cooled, the toast should be so dry that it would powder if you squeezed it in the palm of your hand. As I have stated, this first food should be in the morning.
- During the day, you may have all the distilled water you wish to drink.
- For dinner, you may have a salad of grated carrots, chopped celery and cabbage, with orange juice for dressing. This will be followed by two cooked vegetables,

one such as spinach, kale, shard, or mustard greens, and one such as string beans, carrots, steamed celery, okra, or squash. You may have two pieces of whole-grain "Melba toast." These meals are not to contain oils of any kind.

# Morning of the 9th day

- You may have a dish of any kind of fresh fruit, such as banana, pineapple, orange, sliced grapefruit, or sliced apples. You may sprinkle this with two tablespoonfuls of raw wheat germ, and sweeten it with honey, but not over one tablespoonful
- At noon you may have a salad of grated carrots, cabbage, and celery, with one cooked vegetable and one slice of "Melba toast."
- At dinner you may have a salad dish of lettuce, watercress, parsley, and tomatoes, and two cooked vegetables.

Most experts agree that breaking a fast with vegetables, either steamed or raw, is best. Your stomach is smaller now, so eat lightly. Stop before you feel full. Stay away from starches like pastas, potatoes, rice, or bread (except for "Melba toast") for at least a week. Also avoid meats, dairy products, and any fats or oils for a week or more. Introduce them very slowly and in small amounts.

Extended fasts are not the only fasts which need to be ended with caution. Even a 3-day fast requires reasonable precautions. It is wise to start with a little soup -- something thin and nourishing such as vegetable broth made from onion, celery, potatoes, and carrots -- and fresh fruits such as watermelon and cantaloupe.

In terms of resuming any sort of exercise routine, the advice is the same. Start out slowly, allowing time for your body to re-adjust to its usual regime.

# **Appendix E**

# **Daniel Fast Food List**

by Susan Gregory

**Special Note:** if you have health issues, please be sure to contact your health professional for advice before committing to any fast including the Daniel Fast. If you would like a list of the foods included and excluded in the Daniel Fast to show your doctor, just copy the contents of this page. Also, if you are interested in a collection of recipes that will take you through an entire 21-day Daniel fast go to: <a href="http://danielfast.wordpress.com/2007/12/18/danielfast-cookbook-2/">http://danielfast.wordpress.com/2007/12/18/danielfast-cookbook-2/</a>.

Please make sure to **READ THE LABEL** when purchasing packaged, canned or bottled foods. They should be **sugar-free** and **chemical-free**. Keep this in mind as you review this list of acceptable foods.

# Foods to include in your diet during the Daniel Fast

- <u>All fruits</u>. These can be fresh, frozen, dried, juiced or canned. Fruits include but are not limited to apples, apricots, bananas, blackberries, blueberries, boysenberries, cantaloupe, cherries, cranberries, figs, grapefruit, grapes, guava, honeydew melon, kiwi, lemons, limes, mangoes, nectarines, oranges, papayas, peaches, pears, pineapples, plums, prunes, raisins, raspberries, strawberries, tangelos, tangerines, watermelon
- All vegetables. These can be fresh, frozen, dried, juiced or canned. Vegetables include but are not limited to artichokes, asparagus, beets, broccoli, Brussels sprouts, cabbage, carrots, cauliflower, celery, chili peppers, collard greens, corn, cucumbers, eggplant, garlic, ginger root, kale, leeks, lettuce, mushrooms, mustard greens, okra, onions, parsley, potatoes, radishes, rutabagas, scallions, spinach, sprouts, squashes, sweet potatoes, tomatoes, turnips, watercress, yams, zucchini, veggie burgers are an option if you are not allergic to soy.
- <u>All whole grains</u>, including but not limited to whole wheat, brown rice, millet, quinoa, oats, barley, grits, whole wheat pasta, whole wheat tortillas, rice cakes and popcorn.
- <u>All nuts and seeds</u>, including but not limited to sunflower seeds, cashews, peanuts, sesame. Also nut butters including peanut butter.

<u>All legumes</u>. These can be canned or dried. Legumes include but are not limited to dried beans, pinto beans, split peas, lentils, black eyed peas, kidney beans, black beans, cannellini beans, white beans.

All quality oils including but not limited to olive, canola, grape seed, peanut, and sesame.

<u>Beverages</u>: spring water, distilled water or other pure waters.

Other: tofu, soy products, vinegar, seasonings, salt, herbs and spices.

### Foods to avoid on the Daniel Fast

All meat and animal products including but not limited to beef, lamb, pork, poultry, and fish.

All dairy products including but not limited to milk, cheese, cream, butter, and eggs.

<u>All sweeteners</u> including but not limited to sugar, raw sugar, honey, syrups, molasses, and cane juice.

All leavened bread including Ezekiel Bread (it contains yeast and honey) and baked goods.

<u>All refined and processed food products</u> including but not limited to artificial flavorings, food additives, chemicals, white rice, white flour, and foods that contain artificial preservatives.

All deep fried foods including but not limited to potato chips, French fries, corn chips.

All solid fats including shortening, margarine, lard and foods high in fat.

<u>Beverages</u> including but not limited to coffee, tea, herbal teas, carbonated beverages, energy drinks, and alcohol.

Remember, READ THE LABELS!

# 7 Basic Steps to Successful Fasting and Prayer

By Bill Bright

How you begin and conduct your fast will largely determine your success. By following these seven basic steps to fasting, you will make your time with the Lord more meaningful and spiritually rewarding.

# **STEP 1: Set Your Objective**

Why are you fasting? Is it for spiritual renewal, for guidance, for healing, for the resolution of problems, for special grace to handle a difficult situation? Ask the Holy Spirit to clarify His leading and objectives for your prayer fast. This will enable you to pray more specifically and strategically.

Through fasting and prayer we humble ourselves before God so the Holy Spirit will stir our souls, awaken our churches, and heal our land according to 2 Chronicles 7:14. Make this a priority in your fasting.

#### **STEP 2: Make Your Commitment**

Pray about the kind of fast you should undertake. Jesus implied that all of His followers should fast (Matthew 6:16-18; 9:14,15) For Him it was a matter of when believers would fast, not if they would do it. Before you fast, decide the following up front:

- How long you will fast one meal, one day, a week, several weeks, forty days (Beginners should start slowly, building up to longer fasts.)
- The type of fast God wants you to undertake (such as water only, or water and juices; what kinds of juices you will drink and how often)
- What physical or social activities you will restrict
- How much time each day you will devote to prayer and God's Word

Making these commitments ahead of time will help you sustain your fast when physical temptations and life's pressures tempt you to abandon it.

# **STEP 3: Prepare Yourself Spiritually**

The very foundation of fasting and prayer is repentance. Unconfessed sin will hinder your prayers. Here are several things you can do to prepare your heart:

- Ask God to help you make a comprehensive list of your sins.
- Confess every sin that the Holy Spirit calls to your remembrance and accept God's forgiveness (1 John 1:9).
- Seek forgiveness from all whom you have offended, and forgive all who have hurt you (Mark 11:25; Luke 11:4; 17:3,4).
- Make restitution as the Holy Spirit leads you.
- Ask God to fill you with His Holy Spirit according to His command in Ephesians 5:18 and His promise in 1 John 5:14,15.
- Surrender your life fully to Jesus Christ as your Lord and Master; refuse to obey your worldly nature (Romans 12:1,2).
- Meditate on the attributes of God, His love, sovereignty, power, wisdom, faithfulness, grace, compassion, and others (Psalm 48:9,10; 103:1-8, 11-13).
- Begin your time of fasting and prayer with an expectant heart (Hebrews 11:6).
- Do not underestimate spiritual opposition. Satan sometimes intensifies the natural battle between body and spirit (Galatians 5:16,17).

### **STEP 4: Prepare Yourself Physically**

Fasting requires reasonable precautions. Consult your physician first, especially if you take prescription medication or have a chronic ailment. Some persons should never fast without professional supervision.

Physical preparation makes the drastic change in your eating routine a little easier so that you can turn your full attention to the Lord in prayer.

- Do not rush into your fast.
- Prepare your body. Eat smaller meals before starting a fast. Avoid high-fat and sugary foods.
- Eat raw fruit and vegetables for two days before starting a fast.

# While You Fast

Your time of fasting and prayer has come. You are abstaining from all solid foods and have begun to seek the Lord. Here are some helpful suggestions to consider:

- Avoid drugs, even natural herbal drugs and homeopathic remedies. Medication should be withdrawn only with your physician's supervision.
- Limit your activity.
- Exercise only moderately. Walk one to three miles each day if convenient and comfortable.
- Rest as much as your schedule will permit.
- Prepare yourself for temporary mental discomforts, such as impatience, crankiness, and anxiety.
- Expect some physical discomforts, especially on the second day. You may have fleeting hunger pains, dizziness, or the "blahs." Withdrawal from caffeine and sugar may cause headaches. Physical annoyances may also include weakness, tiredness, or sleeplessness.

The first two or three days are usually the hardest. As you continue to fast, you will likely experience a sense of well-being both physically and spiritually. However, should you feel hunger pains, increase your liquid intake.

# STEP 5: Put Yourself on a Schedule

For maximum spiritual benefit, set aside ample time to be alone with the Lord. Listen for His leading. The more time you spend with Him, the more meaningful your fast will be.

# Morning

- Begin your day in praise and worship.
- Read and meditate on God's Word, preferably on your knees.
- Invite the Holy Spirit to work in you to will and to do His good pleasure according to Philippians 2:13.

- Invite God to use you. Ask Him to show you how to influence your world, your family, your church, your community, your country, and beyond.
- Pray for His vision for your life and empowerment to do His will.

### Noon

- Return to prayer and God's Word.
- Take a short prayer walk.
- Spend time in intercessory prayer for your community's and nation's leaders, for the world's unreached millions, for your family or special needs.

### Evening

- Get alone for an unhurried time of "seeking His face."
- If others are fasting with you, meet together for prayer.
- Avoid television or any other distraction that may dampen your spiritual focus.

When possible, begin and end each day on your knees with your spouse for a brief time of praise and thanksgiving to God. Longer periods of time with our Lord in prayer and study of His Word are often better spent alone.

A dietary routine is vital as well. Dr. Julio C. Ruibal - a nutritionist, pastor, and specialist in fasting and prayer - suggests a daily schedule and list of juices you may find useful and satisfying. Modify this schedule and the drinks you take to suit your circumstances and tastes.

### 5 a.m. - 8 a.m.

 Fruit juices, preferably freshly squeezed or blended and diluted in 50 percent distilled water if the fruit is acid. Apple, pear, grapefruit, papaya, watermelon, or other fruit juices are generally preferred. If you cannot do your own juicing, buy juices without sugar or additives.

10:30 a.m. - noon

• Fresh vegetable juice made from lettuce, celery, and carrots in three equal parts.

2:30 p.m. - 4 p.m.

Herb tea with a drop of honey. Avoid black tea or any tea with caffeine.

6 p.m. - 8:30 p.m.

 Broth made from boiling potatoes, celery, and carrots with no salt. After boiling about half an hour, pour the water into a container and drink it.

#### **Tips on Juice Fasting**

- Drinking fruit juice will decrease your hunger pains and give you some natural sugar energy. The taste and lift will motivate and strengthen you to continue.
- The best juices are made from fresh watermelon, lemons, grapes, apples, cabbage, beets, carrots, celery, or leafy green vegetables. In cold weather, you may enjoy a warm vegetable broth.
- Mix acidic juices (orange and tomato) with water for your stomach's sake.
- Avoid caffeinated drinks. And avoid chewing gum or mints, even if your breath is bad. They stimulate digestive action in your stomach.

# **Breaking Your Fast**

When your designated time for fasting is finished, you will begin to eat again. But how you break your fast is extremely important for your physical and spiritual well-being.

### **STEP 6: End Your Fast Gradually**

Begin eating gradually. Do not eat solid foods immediately after your fast. Suddenly reintroducing solid food to your stomach and digestive tract will likely have negative, even dangerous, consequences. Try several smaller meals or snacks each day. If you end your fast gradually, the beneficial physical and spiritual effects will result in continued good health.

Here are some suggestions to help you end your fast properly:

Break an extended water fast with fruit such as watermelon.

While continuing to drink fruit or vegetable juices, add the following:

First day: Add a raw salad.

Second day: Add baked or boiled potato, no butter or seasoning.

Third day: Add a steamed vegetable.

Thereafter: Begin to reintroduce your normal diet.

Gradually return to regular eating with several small snacks during the first few
days. Start with a little soup and fresh fruit such as watermelon and cantaloupe.
Advance to a few tablespoons of solid foods such as raw fruits and vegetables or a
raw salad and baked potato.

# **A Final Word**

# **STEP 7: Expect Results**

If you sincerely humble yourself before the Lord, repent, pray, and seek God's face; if you consistently meditate on His Word, you will experience a heightened awareness of His presence (John 14:21). The Lord will give you fresh, new spiritual insights. Your confidence and faith in God will be strengthened. You will feel mentally, spiritually, and physically refreshed. You will see answers to your prayers.

A single fast, however, is not a spiritual cure-all. Just as we need fresh infillings of the Holy Spirit daily, we also need new times of fasting before God. A 24-hour fast each week has been greatly rewarding to many Christians.

It takes time to build your spiritual fasting muscles. If you fail to make it through your first fast, do not be discouraged. You may have tried to fast too long the first time out, or your may need to strengthen your understanding and resolve. As soon as possible, undertake another fast until you do succeed. God will honor you for your faithfulness.

I encourage you to join me in fasting and prayer again and again until we truly experience revival in our homes, our churches, our beloved nation, and throughout the world.

# **Appendix G**

# **Your Personal Guide to Fasting and Prayer**

By Bill Bright

Fasting is the most powerful spiritual discipline of all the Christian disciplines. Through fasting and prayer, the Holy Spirit can transform your life.

Fasting and prayer can also work on a much grander scale. According to Scripture, personal experience and observation, I am convinced that when God's people fast with a proper Biblical motive-seeking God's face not His hand-with a broken, repentant, and contrite spirit, God will hear from heaven and heal our lives, our churches, our communities, our nation and world. Fasting and prayer can bring about revival - a change in the direction of our nation, the nations of earth and the fulfillment of the Great Commission.

The awesome power can be released through you as you fast through the enabling of the Holy Spirit.

Fasting is one of the most neglected spiritual admonitions. In fact, it has been ignored for so long that it is difficult to find information on the "how-to's" of this life-changing experience. When I first undertook an extended fast, I had a difficult time finding information on the nature of a Biblical fast, how to start, what to expect physically and spiritually, and how to terminate a fast.

These pages are designed to answer your practical questions about fasting and ease any concerns you might have. In this series, you will learn:

- Why you should fast
- How to fast safely
- How long and what type of fast is right for you
- How to prepare yourself spiritually and physically
- How to manage your schedule while fasting
- How to deal with the responses of friends and loved ones

- How to make your spiritual experience the best it can be
- How to maintain nutritional balance and health from beginning to end (including specific juice and broth recipes)
- What physical benefits to expect
- How to finish your fast and return to your normal schedule in a HEALTHY way

I want to be of help to you so I will be speaking to you from these pages at various points in the study. I have completed five 40-day fasts. I want to share with you what I have learned and what has helped me. Whether you hold a 1-day fast or an extended 40-day fast, I pray that our Lord's most wonderful love and blessings will be poured out on you as you take this exciting step of faith.

# Why You Should Fast

If you do not already know of the power and importance of fasting, here are some very important facts:

- Fasting was an expected discipline in both the Old and New Testament eras. For
  example, Moses fasted at least two recorded forty-day periods. Jesus fasted 40
  days and reminded His followers to fast, "when you fast," not if you fast.
- Fasting and prayer can restore the loss of the "first love" for your Lord and result in a more intimate relationship with Christ.
- Fasting is a biblical way to truly humble yourself in the sight of God (Psalm 35:13; Ezra 8:21). King David said, "I humble myself through fasting."
- Fasting enables the Holy Spirit to reveal your true spiritual condition, resulting in brokenness, repentance, and a transformed life.
- The Holy Spirit will quicken the Word of God in your heart and His truth will become more meaningful to you!
- Fasting can transform your prayer life into a richer and more personal experience.

- Fasting can result in a dynamic personal revival in your own life-and make you a channel of revival to others.
- Fasting and prayer are the only disciplines that fulfill the requirements of II Chronicles 7:14:

"If my people, who are called by my name, will humble themselves and pray and seek my face and turn from their wicked ways, then will I hear from heaven and will forgive their sin and will heal their land."

If you fast, you will find yourself being humbled as I did. You will discover more time to pray and seek God's face. And as He leads you to recognize and repent of unconfessed sin, you will experience special blessings from God.

# **How to Fast Safely**

As you begin your fast, you may hear from concerned loved ones and friends who urge you to protect your health. And they are right. You should protect your health. But I assure you, if done properly, fasting will not only prove to be a spiritual blessing, but physical blessing as well.

By all means, consult your doctor before you begin your fast. But, be aware that many doctors have not been trained in this area and so their understanding is limited. Even so, it would be wise to ask your doctor for a physical exam to make sure you are in good health. You may have a physical problem that would make fasting unwise or dangerous. Also, if you are under any type of medication, make sure you talk to your doctor before changing your regime. Prudence and caution are in order.

When you are assured that you are in good health, you are ready to begin your fast. Follow the guidelines in the Physical Preparations and Maintaining Nutritional Balance and Health parts of this website.

In spite of the absolute safety and benefits of fasting, there are certain persons who should NEVER fast without professional supervision. For example:

- Persons who are physically too thin or emaciated.
- Persons who are prone to anorexia, bulimia, or other behavioral disorders.

- Those who suffer weakness or anemia.
- Persons who have tumors, bleeding ulcers, cancer, blood diseases, or who have heart disease.
- Those who suffer chronic problems with kidneys, liver, lungs, heart, or other important organs.
- Individuals who take insulin for diabetes, or suffer any other blood sugar problem such as hyperglycemia.
- Women who are pregnant or nursing.

# How Long and What Type of Fast is Right for You

If you have never fasted before, I applaud your present interest! Fasting has been a major emphasis in the lives of many of the great spiritual leaders throughout history. John Wesley, the founder of the Methodist denomination, fasted every Wednesday and Friday and required all of his clergy to do the same. Effective ministers of God from the apostle Paul to Martin Luther to John Calvin made it a continual part of their walks with God.

None of those men had a "formula fast" that was the only "right" way. Fasting is about the condition of the heart, not the number of days. Each time that I have fasted for forty days, it was because I felt impressed by God to do so.

So, start slowly. Fast for one meal a day, or one day a week, or one week a month. Build up your spiritual muscles so that you will be prepared in a period of several months to fast for an extended 40 day period.

### The Bible Recounts Primarily Two Types of Fasts

A partial fast is described in the book of Daniel. Although the water fast seemed to be the custom of the prophet, there was a three-week period in which he only abstained from "delicacies," meat, and wine (Daniel 10:3).

The two primary types mentioned in the Bible are the "absolute" and "supernatural absolute" fasts. These are total fasts-no food (solid or liquid) and no water. Paul went on an absolute fast for three days following his encounter with Jesus on the road to Damascus (Acts 9:9).

- Moses and Elijah engaged in what must be considered a supernatural absolute fast of forty days (Deuteronomy 9:9; I Kings 19:8).
- So, I strongly advice you to drink plenty of liquids. Obviously, if God leads you to undertake an absolute fast, you should obey. If so, be certain, without doubt, that God is leading you.
- Water-only fasts that last for more than several days need to be undertaken with complete rest and under medical supervision because of the extreme danger of over-toxification, breakdown of vital body tissues, and loss of electrolytes.
- I personally recommend and practice water and juice fasting, especially if you are going to fast for an extended period of time. This type of fast will provide you with more energy than absolute or water-only fasts and still lead you into the humbling experience of denying your desire for solid food that you can chew.
- When it comes to making your final decision about what type of fast is right for you, the best advise I can give you is to follow the leading of the Holy Spirit. He will guide your heart and mind as to what is best for you. Remember, the most important consideration in fasting is your motive. Why are you fasting? To seek something personally from God's hand or to seek His face in worship, praise and thanksgiving?

# **How to Prepare Yourself Spiritually and Physically**

# **Spiritual Preparation**

- In preparation for this special time with God, I strongly urge you to examine your heart, and detect any unconfessed sin. Scripture records that God always requires His people to repent of their sins before He will hear their prayers. King David said:
- Come and hear, all of you who reverence the Lord, and I will tell you what he did for me: For I cried to him for help, with praises ready on my tongue. He would not have listened if I had not confessed my sins. But he listened! He heard my prayer! He paid attention to it!
- Blessed be God who didn't turn away when I was praying, and didn't refuse me his kindness and love. (Psalm 66:16-20)
- In your prayers, confess not only obvious sins, but less obvious ones as well. The sins of omission as well as the sins of commission experiences. These may be experiences leaving

your first love for our Lord: worldly-mindedness, self-centeredness, spiritual indifference, and unwillingness to share your faith in Christ with others, not spending sufficient time in God's Word and in prayer, a poor relationship with your spouse, your children, your pastor, or other members of your church.

Another great way to prepare for your fast is to practice what I call "Spiritual Breathing." The concept is simple, but it has changed my own life and that of millions of others.

Like physical breathing, Spiritual Breathing is a process of exhaling the impure and inhaling the pure. If you knowingly sin, breathe spiritually to restore the fullness of God's Holy Spirit in your life. You exhale by confessing your sins immediately when you become aware of them, and you inhale by inviting the Holy Spirit to re-take control of your life. As an act of faith, trust Him to empower you. During the fast, spiritual breathing-constant reliance on the Holy Spirit-will enable you to resist temptation, not only to sin but to abandon your fast.

# **Physical Preparation**

Although fasting is primarily a spiritual discipline, it begins in the physical realm. You should not fast without specific physical preparation.

If you plan on fasting for several days, you will find it helpful to begin by eating smaller meals before you abstain altogether. Resist the urge to have that "last big feast" before the fast. Cutting down on your meals a few days before you begin the fast will signal your mind, stomach, and appetite that less food is acceptable.

Some health professionals suggest eating only raw foods for two days before starting a fast. I also recommend weaning yourself off caffeine and sugar products to ease your initial hunger or discomfort at the early stages of your fast.

# **Managing Your Schedule While Fasting**

How long you fast, the kind of fast you undertake, and how you adjust your work schedule depends mostly on your occupation. Persons with office jobs, pastors, or homemakers may find it easier to continue their duties and fast for longer periods of time. In fact, on the basis of my personal experience, worldwide travels and the many letters, which I have received, I am confident that many, many thousands of pastors and lay men and women have already completed a 40-day fast!

Though there are many who engage in strenuous physical labor and have enjoyed their extended fast, if you are so engaged, you may wish to fast only one or more days of the week, limiting yourselves to partial fasting if you are so engaged. Or you may look to weekends as the prime time to abstain from food. Remember, too, fasting during major holidays is not always a good idea. Families may be inconvenienced, and temptations to eat can be overwhelming.

Reasons for schedule adjustments, especially during an extended fast, are two-fold...

The first is physical. Throughout your fast, you may feel somewhat weaker than normal. During the first few days, you may feel tired and irritable. Lightening your workload and cutting down on strenuous exercise would be a very good idea to maintain your health and your morale.

The second reason is spiritual. Fasting is not just denying yourself food. It is exchanging the needs of the physical body for those of the spiritual. Long times of prayer and reading God's Word will be very essential if you are to enter into a more intimate communion with God to maintain your fast to its completion. While fasting, if you dissipate your energy on numerous errands or busy-work to the neglect of spending special time with God, you will starve both physically and spiritually. You will find yourself becoming discouraged and frustrated with your fast instead of being benefited and uplifted and blessed. I don't want that to happen to you.

The more time you spend with God in fellowship, worship, and adoration of Him, and the more you read and meditate upon His Word, the greater your effectiveness will be in prayer and the more meaningful your fast will be. So I encourage you to arrange your schedule accordingly!

# **Dealing with the Responses of Friends and Loved Ones**

Many people are reluctant to tell others that they are fasting so they will avoid the sin of the Pharisees: fasting just to gain recognition for themselves. I strongly believe that attitude is a result of a wrong interpretation of our Lord's teaching and that it is a trick of the enemy who does not want us to fast, nor to share with your loved ones, neighbors and friends the benefits of fasting.

By isolating ourselves from the support of other Christians, we will be more susceptible to doubts and negative influences (both human and demonic). We need the prayer shield of our Christian friends and family members to help us continue when we feel alone and when the enemy tempts us to give up Our Lord as he did Jesus Christ. Eventually, people will notice you are not eating.

However, I have found that unless you see them daily, they do not consider your skipped meal much of a concern. If you are asked, nonbelievers may be satisfied by such a brief answer as, "I have other plans for lunch today." Or Christians should be satisfied when you answer that you are fasting today.

If friends and family express concern for your health, ease their fears by telling them that you will stop fasting the moment you feel you are harming your body or if the Lord leads you to end your fast. Tell them you are fasting under your doctor's care, which I urge you to do if you have any question concerning your health.

There is usually no reason for telling strangers or casual acquaintances that you are fasting. If you do, they may subject you to a lot of questions that you may not want to answer. But in any case, use your best judgment and the Lord's leading in telling people about your fast.

# Making Your Spiritual Experience the Best it Can Be

Receiving God's best blessing from a fast requires solid commitment. Arranging special time each day with God is absolutely crucial in attaining intimate communion with the Father. You must devote yourself to seeking God's face, even (and especially) during those times in which you feel weak, vulnerable, or irritable. Read His Word and pray during what were mealtimes. Meditate on Him when you awake in the night. Sing praises to Him whenever you please. Focus on your Heavenly Father and make every act one of praise and worship. God will enable you to experience His command to "pray without ceasing" as you seek His presence.

As you enter this time of heightened spiritual devotion, be aware that Satan will do everything he can to pull you away from your prayer and Bible reading time. When you feel the enemy trying to discourage you, immediately go to God in prayer and ask Him to strengthen your resolve in the face of difficulties and temptations.

The enemy makes you a target because he knows that fasting is the most powerful of all Christian disciplines and that God may have something very special to show you as you wait upon Him and seek His face. Satan does not want you to grow in your faith, and will do anything from making you hungry and grumpy to bringing up trouble in your family or at work to stop you. Make prayer your shield against such attacks.

My major reason for fasting is for personal revival, revival for our nation, for the world and for the fulfillment of the Great Commission. But praying for our own needs and interceding for others are also important reasons to fast and pray. Bring your personal needs before the Lord, intercede for your loved ones, your friends, your church, your pastor, your community, your nation, and the world. By your prayers of humility, as you fast, you will help the Great Commission be fulfilled.

However, do not become so caught up in praying for yourself and others that you forget about simply reverencing and praising God. True spiritual fasting focuses on God. Center your total being on Him, your attitudes, your actions, your motives, desires, and words. This can only take place if God and His Holy Spirit are at the center of our attention. Confess your sins as the Holy Spirit brings them to your attention and continue to focus on God and God alone so that your prayers may be powerful and effective.

A renewed closeness with God and a greater sensitivity to spiritual things are usually the results of a fast. Do not be disappointed if you do not have a "mountaintop experience," as some do. Many people who have successfully completed extended fasts tell of feeling a nearness to God that they have never before known, but others who have honestly sought His face report no particular outward results at all. For others, their fast was physically, emotionally, and spiritually grueling, but they knew they had been called by God to fast, and they completed the fast unto Him as an act of worship; God honored that commitment.

Your motive in fasting must be to glorify God, not to have an emotional experience, and not to attain personal happiness. When your motives are right, God will honor your seeking heart and bless your time with Him in a very special way.
